We sincerely invite outstanding young minds from across the globe to participate and join us in realizing your innovative dreams and creating a brighter future together.

For specific guidance on project suitability,

please consult with Zhengzhou University or the designated international co-organizing partner for your region.

A "non-Chinese institution" refers to a university or vocational school located outside the People's Republic of

China that is accredited to provide tertiary education and award degrees. An "enrolled student" is defined as a student officially registered and studying at a non-Chinese institution, pursuing a degree or diploma.
